

Everbridge Safety Connection Wins 2018 Platinum Secure Campus Award

April 19, 2018

Campus Security and Life Safety Magazine Recognizes Safety Connection's Innovative Ability to Quickly Locate and Communicate with Students, Employees and Residents during Critical Events

BURLINGTON, Mass.--(BUSINESS WIRE)--Apr. 19, 2018-- [Everbridge, Inc.](#) (NASDAQ: EVBG), the global leader in critical event management and enterprise safety software applications to help keep people safe and businesses running faster, today announced that [Safety Connection](#)™ received the 2018 "Platinum" distinction in this year's [Secure Campus Awards](#) from *Campus Security & Life Safety*. The awards, which honor outstanding campus security services and products, were selected by an independent panel of judges from the security industry and handed out at ISC West 2018 in Las Vegas.

"Campus security has been a real issue across the country lately, so it is great to see all the outstanding products and services that are available to the marketplace," said President and Group Publisher of the Infrastructure Solutions Group of 1105 Media, Kevin O'Grady. "The range of innovation, design and usability in these products mirrors the importance of campus security for our schools, hospitals and facilities."

Safety Connection, a key application of the [Everbridge Critical Event Management](#)™ platform, is used by leading global organizations, universities and hospitals to keep mobile and traveling employees, students and staff safe and informed during critical events and business disruptions. Where traditional emergency notification and physical security solutions focus on an individual's static home or work address, Safety Connection utilizes multiple methods to dynamically locate, notify and instruct individuals based upon where they actually are, or their travel destination. When deployed, security professionals can aggregate near real-time location data from multiple sources, including building access control systems and travel management systems to send notifications to individuals and employees who might be in dangerous situations, based on their dynamic "last known" or "expected" location.

"Today, major corporations are facing the twin challenges of an increasingly unpredictable threat environment with an ever-increasing mobile work force," said Everbridge CTO Imad Mouline. "It is an honor to have Safety Connection recognized as a premier physical security and critical event management solution for businesses, airports, hospitals and colleges, helping to protect traveling employees, pinpointing the actual location of people on campuses amid an active shooter episode, systematically checking on the safety of field workers and security guards and expanding the geographies in which companies feel safe to operate."

About Everbridge

[Everbridge, Inc.](#) (NASDAQ: EVBG) is a global software company that provides enterprise software applications that automate and accelerate organizations' operational response to critical events in order to keep people safe and businesses running faster. During public safety threats such as active shooter situations, terrorist attacks or severe weather conditions, as well as critical business events such as IT outages, cyber-attacks or other incidents such as product recalls or supply-chain interruptions, over 3,700 global customers rely on the company's SaaS-based platform to quickly and reliably aggregate and assess threat data, locate people at risk and responders able to assist, automate the execution of pre-defined communications processes, and track progress on executing response plans. The company's platform sent over 2 billion messages in 2017, and offers the ability to reach more than 200 countries and territories with secure delivery to over 100 different communication devices. The company's critical communications and enterprise safety applications include Mass Notification, Incident Management, Safety Connection™, IT Alerting, Visual Command Center®, Crisis Commander®, Community Engagement™ and Secure Messaging. Everbridge serves 9 of the 10 largest U.S. cities, 8 of the 10 largest U.S.-based investment banks, 25 of the 25 busiest North American airports, six of the 10 largest global consulting firms, six of the 10 largest global auto makers, all four of the largest global accounting firms, four of the 10 largest U.S.-based health care providers and four of the 10 largest U.S.-based health insurers. Everbridge is based in Boston and Los Angeles with additional offices in San Francisco, Lansing, Orlando, Beijing, London, and Stockholm. Cautionary Language Concerning Forward-Looking Statements

This press release contains "forward-looking statements" within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, including but not limited to, statements regarding the anticipated opportunity and trends for growth in our critical communications and enterprise safety applications and our overall business, our market opportunity, our expectations regarding sales of our products, and our goal to maintain market leadership and extend the markets in which we compete for customers. These forward-looking statements are made as of the date of this press release and were based on current expectations, estimates, forecasts and projections as well as the beliefs and assumptions of management. Words such as "expect," "anticipate," "should," "believe," "target," "project," "goals," "estimate," "potential," "predict," "may," "will," "could," "intend," variations of these terms or the negative of these terms and similar expressions are intended to identify these forward-looking statements. Forward-looking statements are subject to a number of risks and uncertainties, many of which involve factors or circumstances that are beyond our control. Our actual results could differ materially from those stated or implied in forward-looking statements due to a number of factors, including but not limited to: the ability of our products and services to perform as intended and meet our customers' expectations; our ability to attract new customers and retain and increase sales to existing customers; our ability to increase sales of our Mass Notification application and/or ability to increase sales of our other applications; developments in the market for targeted and contextually relevant critical communications or the associated regulatory environment; our estimates of market opportunity and forecasts of market growth may prove to be inaccurate; we have not been profitable on a consistent basis historically and may not achieve or maintain profitability in the future; the lengthy and unpredictable sales cycles for new customers; nature of our business exposes us to inherent liability risks; our ability to attract, integrate and retain qualified personnel; our ability to successfully integrate businesses and assets that we may acquire; our ability to maintain successful relationships with our channel partners and technology partners; our ability to manage our growth effectively; our ability to respond to competitive pressures; potential liability related to privacy and security of personally identifiable information; our ability to protect our intellectual property rights, and the other risks detailed in our risk factors

discussed in filings with the U.S. Securities and Exchange Commission ("SEC"), including but not limited to our Annual Report on Form 10-K for the year ended December 31, 2016 filed with the SEC on March 23, 2017. The forward-looking statements included in this press release represent our views as of the date of this press release. We undertake no intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. These forward-looking statements should not be relied upon as representing our views as of any date subsequent to the date of this press release.
