

Everbridge Achieves U.S. Defense Information Systems Agency Authorization for Cloud Services

October 15, 2018

BURLINGTON, Mass.--(BUSINESS WIRE)--Oct. 15, 2018-- [Everbridge](#), Inc. (NASDAQ: EVBG), the global leader in critical event management and enterprise safety software applications to help keep people safe and businesses running, today announced the Company has received a Provisional Authorization (PA) for Impact Level 2 from the U.S. [Defense Information Systems Agency](#) (DISA), the IT combat support organization of the Department of Defense (DoD). This authorization enables all DoD missions and agencies to leverage the Everbridge Suite of solutions, including Mass Notification, Incident Communications and IT Alerting, to safeguard military personnel, civilians, and contractors, as well as defense facilities and assets, at home and abroad.

The PA granted by DISA to Everbridge will enable DoD agencies the opportunity to ultimately streamline their authorizations of Everbridge's cloud-based suite of solutions by leveraging the thorough process DISA followed. In addition, Everbridge received [FedRAMP authorization](#) in July of this year, passing the rigorous security and risk management review process required to offer its solutions to other federal agencies.

"With DISA and FedRAMP authorization, the Everbridge Suite of solutions is now certified for use by both the civilian and military areas of the Federal government," said Jaime Ellertson, CEO of Everbridge. "This latest authorization provides Department of Defense agencies with the opportunity to embrace our cloud-based Critical Event Management platform to rapidly respond to – and even avoid – sudden, unexpected disruptions, while protecting those who serve our nation."

In addition to the Department of Defense, Everbridge currently supports the operational resilience needs of more than 40 [federal agencies](#) including the Department of Justice, the Environmental Protection Agency, and the Social Security Administration.

The [Department of Defense \(DoD\) Cloud Computing Security Requirements Guide \(SRG\)](#) provides a standardized assessment and authorization process for cloud service providers to gain a DoD provisional authorization, so that they can serve DoD customers. The provisional authorization from DISA provides a reusable certification that attests to Everbridge's compliance with DoD standards, reducing the time necessary for a DoD mission owner to assess and authorize one of their systems for operation with Everbridge.

For more information about the SRG, including the full definition of the security control baselines defined for Levels 2, see the [Information Assurance Support Environment \(IASSE\) DoD Cloud Computing Security](#) webpage.

About Everbridge

[Everbridge](#), Inc. (NASDAQ: EVBG) is a global software company that provides enterprise software applications that automate and accelerate organizations' operational response to critical events in order to keep people safe and businesses running. During public safety threats such as active shooter situations, terrorist attacks or severe weather conditions, as well as critical business events including IT outages, cyber-attacks or other incidents such as product recalls or supply-chain interruptions, over 4,000 global customers rely on the company's Critical Event Management Platform to quickly and reliably aggregate and assess threat data, locate people at risk and responders able to assist, automate the execution of pre-defined communications processes through the secure delivery to over 100 different communication devices, and track progress on executing response plans. The company's platform sent over 2 billion messages in 2017 and offers the ability to reach over 500 million people in more than 200 countries and territories, including the entire mobile populations on a country-wide scale in Sweden, the Netherlands, the Bahamas, Singapore, Greece, Cambodia, and a number of the largest states in India. The company's critical communications and enterprise safety applications include Mass Notification, Incident Communications, Safety Connection™, IT Alerting, Visual Command Center®, Crisis Commander®, Community Engagement™ and Secure Messaging. Everbridge serves 9 of the 10 largest U.S. cities, 8 of the 10 largest U.S.-based investment banks, all 25 of the 25 busiest North American airports, six of the 10 largest global consulting firms, six of the 10 largest global auto makers, all four of the largest global accounting firms, four of the 10 largest U.S.-based health care providers and four of the 10 largest U.S.-based health insurers. Everbridge is based in Boston and Los Angeles with additional offices in Lansing, San Francisco, Beijing, Kolkata, London, Oslo and Stockholm. Cautionary Language Concerning Forward-Looking Statements

This press release contains "forward-looking statements" within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, including but not limited to, statements regarding the anticipated opportunity and trends for growth in our critical communications and enterprise safety applications and our overall business, our market opportunity, our expectations regarding sales of our products, and our goal to maintain market leadership and extend the markets in which we compete for customers. These forward-looking statements are made as of the date of this press release and were based on current expectations, estimates, forecasts and projections as well as the beliefs and assumptions of management. Words such as "expect," "anticipate," "should," "believe," "target," "project," "goals," "estimate," "potential," "predict," "may," "will," "could," "intend," variations of these terms or the negative of these terms and similar expressions are intended to identify these forward-looking statements. Forward-looking statements are subject to a number of risks and uncertainties, many of which involve factors or circumstances that are beyond our control. Our actual results could differ materially from those stated or implied in forward-looking statements due to a number of factors, including but not limited to: the ability of our products and services to perform as intended and meet our customers' expectations; our ability to attract new customers and retain and increase sales to existing customers; our ability to increase sales of our Mass Notification application and/or ability to increase sales of our other applications; developments in the market for targeted and contextually relevant critical communications or the associated regulatory environment; our estimates of market opportunity and forecasts of market growth may prove to be inaccurate; we have not been profitable on a consistent basis historically and may not achieve or maintain profitability in the future; the lengthy and unpredictable sales cycles for new customers; nature of our business exposes us to inherent liability risks; our ability to attract, integrate and retain qualified personnel; our ability to successfully integrate businesses and assets that we may acquire; our ability to maintain successful relationships with our channel partners and technology partners; our ability to manage our growth effectively; our ability to respond to competitive pressures; potential liability related to privacy

and security of personally identifiable information; our ability to protect our intellectual property rights, and the other risks detailed in our risk factors discussed in filings with the U.S. Securities and Exchange Commission ("SEC"), including but not limited to our Annual Report on Form 10-K for the year ended December 31, 2017 filed with the SEC on March 12, 2018. The forward-looking statements included in this press release represent our views as of the date of this press release. We undertake no intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. These forward-looking statements should not be relied upon as representing our views as of any date subsequent to the date of this press release.
