Everbridge and RockDove Solutions' In Case of Crisis Partner to Automate Mobile Crisis Management

March 9, 2016 4:34 PM ET

Companies to Highlight Partnership for Business Continuity Professionals at DRJ Spring World 2016

BURLINGTON, Mass., March 9, 2016 —Everbridge, a global provider of SaaS-based unified critical communications solutions, and RockDove Solutions, developer of the award-winning In Case of Crisis mobile solution, have formed a strategic technology partnership to enable mobile crisis management. Organizations can now combine In Case of Crisis' business continuity and emergency plans with Everbridge's contact database and workflows to streamline and automate critical communications.

"This partnership is very synergistic, as we are able to provide a more complete critical communication and crisis solution to our clients, and more importantly, help them better prepare for, respond to and recover from a crisis," said Chris Britton, Chief Operating Officer, RockDove Solutions.

The strategic partnership provides organizations with synchronized list and group management between the Everbridge critical communications platform and In Case of Crisis, as well as end-to-end incident reporting and polling workflow. Additional planned integration features include advanced notification options for In Case Of Crisis users via the Everbridge® platform that can help improve emergency response and business continuity activities while enabling mobile crisis management across the enterprise.

"We're excited to partner with the RockDove team to provide business continuity users with a unified approach to mobile crisis management," said Claudia Dent, VP of Product Management at Everbridge. "This increased connectivity between our two solutions can redefine the way that response teams manage critical incidents, while simultaneously helping to keep key stakeholders safe and informed throughout the process."

Everbridge (booth #416) and RockDove Solutions (booth #611) will be at DRJ Spring World 2016 in Orlando, FL on March 13th– 16th to introduce the integration, and highlight how the solution will enable In Case of Crisis users to deliver communications to both core response teams, as well as additional employees and customers.

Both organizations will be **previewing the integration during a special DRJ Spring World session at the Everbridge booth** on Tuesday, March 15th at 11:15 AM ET. Please stop by our booth at that time or contact Marketing@Everbridge.com if you would like to schedule a seat in advance.

In addition, Everbridge and RockDove Solutions highlighted the integration at a webinar on April 14th. Watch it on-demand here: http://go.everbridge.com/in-case-of-crisis-webinar.html
