Everbridge Achieves ISO 27001 Certification

May 14, 2019

Compliance with the International Standard for Information Security Management Further Expands Everbridge's Commitment to Data Privacy and Security

BURLINGTON, Mass.--(BUSINESS WIRE)--May 14, 2019-- Everbridge, Inc. (NASDAQ: EVBG), the global leader in critical event management and enterprise safety software applications to help keep people safe and businesses running, today announced it has received the prestigious ISO 27001 certification, the international standard outlining best practices for information security management systems. Compliance with this standard demonstrates Everbridge's global commitment to a repeatable, continuously improving, risk-based security program. The Company's information security management system was inspected by Coalfire ISO, a certification body for management systems accredited through the ANSI-ASQ National Accreditation Board (ANAB).

The Everbridge suite of products that are ISO-certified include Mass Notification, Safety Connection™, Crisis Management, Visual Command Center®, IT Alerting, SMARTweather and ThreatView, and Everbridge's mobile apps, both in the United States and Europe.

Established by the International Organization for Standardization (ISO), the standard requires the certification of an organization's information security management controls for areas such as data security and business continuity. The certification extends to every level of an organization's IT infrastructure stack, including asset management, access control, human resource security, and application security.

"The primary job of Everbridge's security team is to create products and services that are resilient and assured. In doing so, we can be sure that our business operations are equally secure," said Scott Burnett, Senior Vice President of Operations, Everbridge. "We've invested in the rigorous ISO 27001 certification process to provide additional transparency to our customers and to demonstrate the highest standards for safeguarding data."

"Leveraging the ISO framework for our security implementation has provided Everbridge with a common language as we continue to deploy controls and procedures throughout our organization," added Burnett. "With our ISO 27001 certification, we're demonstrating to our customers that we have applied appropriate controls throughout both our corporate and production environments."

Everbridge helps ensure its customers operate in a secure environment that complies with a wide array of industry security standards and regulations including SSAE 18/ISAE-3402 SOC 2 and SOC 3, General Data Protection Regulation (GDPR) and Privacy Shield. Everbridge is part of an elite group of cloud and SaaS providers that have achieved FedRAMP Authorization, adhering to all 325 security controls.

About Everbridge
Everbridge, Inc. (NASDAQ: EVBG) is a global software company that provides enterprise software applications that automate and accelerate organizations' operational response to critical events in order to keep people safe and businesses running. During public safety threats such as active shooter situations, terrorist attacks or severe weather conditions, as well as critical business events including IT outages, cyber-attacks or other incidents such as product recalls or supply-chain interruptions, over 4,500 global customers rely on the company's Critical Event Management Platform to quickly and reliably aggregate and assess threat data, locate people at risk and responders able to assist, automate the execution of pre-defined communications processes through the secure delivery to over 100 different communication devices, and track progress on executing response plans. The company's platform sent over 2.8 billion messages in 2018 and offers the ability to reach over 500 million people in more than 200 countries and territories, including the entire mobile populations on a country-wide scale in Sweden, the Netherlands, the Bahamas, Singapore, Greece, and a number of the largest states in India.
