BURLINGTON, Mass.--(BUSINESS WIRE)--Jan. 17, 2017-- [Everbridge](#), Inc. (NASDAQ: EVBG), a global software company that provides critical communications and enterprise safety applications to help keep people safe and businesses running, today announced its Everbridge Nixle [Community Engagement](#)™ notification system will be used to help keep Washington, D.C. area residents and visitors safe and informed in the days leading up to and during the 58<sup>th</sup> Presidential Inauguration in Washington, D.C. on January 20, 2017. The [United States Park Police](#), one of the oldest uniformed federal law enforcement agencies in the United States, and the Washington, D.C. government, will leverage the Community Engagement solution to provide subscribers with safety, weather, traffic, event and emergency alerts in near real-time.

With more than 800,000 expected attendees, public safety officials are encouraging residents, visitors and Presidential Inauguration attendees to **text the keyword INAUG to 888-777** to receive the latest information and updates leading up to and throughout the event. Current subscribers in the Washington, D.C. area will continue to receive their regular local alerts from Everbridge and can choose to opt-in to INAUG for Presidential Inauguration specific information.

"We are excited to partner with the Washington, D.C. government and the United States Park Police in their efforts to provide timely and actionable information to Washington, D.C. area visitors, residents and attendees to help keep everyone safe and informed," said Jaime Ellertson, CEO of Everbridge.

Community Engagement, powered by Everbridge, is a service that has been successfully deployed at similar large scale events which attract visitors from out of town, including [Super Bowl 50](#), [Coachella](#) and the [Pope's historic visit](#) to the city of Philadelphia in 2015. It is also regularly used by officials during severe weather situations, including [Hurricane Matthew](#) in 2016. The Community Engagement solution offers residents and visitors an easy, event-based keyword opt-in process to improve communication reach for emergency, safety and public information personnel.
