

NVIDIA Deploys Everbridge's Safety Connection Solution to Keep Mobile Employees Safe

July 25, 2017

Multinational Selects Safety Connection™ to Locate and Communicate with Mobile and Traveling Employees During Critical Events

BURLINGTON, Mass.--(BUSINESS WIRE)--Jul. 25, 2017-- [Everbridge](#), Inc. (NASDAQ: EVBG), a global software company that provides critical event management and enterprise safety applications to help keep people safe and businesses running, today announced that [NVIDIA](#) (NASDAQ: NVDA) has selected Everbridge's [Safety Connection](#)™ to improve its ability to locate and communicate with employees, contractors and visitors during critical business incidents and emergencies. NVIDIA will also leverage the powerful integration between [International SOS](#) TravelTracker and Everbridge's platform to communicate key messages to traveling employees and executives during international incidents and risks.

NVIDIA, a leader in artificial intelligence, computer graphics and self-driving cars, has over 10,000 employees in dozens of offices around the world. Crises can occur quickly and without warning, so deploying Everbridge Safety Connection to keep track of employees' locations, no matter where they're located geographically, is a critical component to ensuring global employee safety for NVIDIA.

Safety Connection aggregates geo-location data from multiple systems – wireless network access points, travel itineraries, such as TravelTracker, home and office location records and check-ins through its mobile application – to take a multi-pronged approach to locating and alerting employees, responders, contractors or visitors who are potentially at risk.

"Major organizations, like NVIDIA, have to be accountable for their global employees as they travel domestically and internationally on a daily basis," said Everbridge CEO Jaime Ellertson. "With so many mobile employees, organizations cannot rely on solely perimeter security and static communication methods to keep their people safe and informed. Safety Connection makes it easy to identify the dynamic locations of employees and executives to ensure they receive critical information and updates during all types of location-based incidents."

In addition to NVIDIA, Everbridge serves several high-profile technology companies in the San Francisco Bay Area and beyond, including Facebook and Uber.

About Everbridge

[Everbridge, Inc.](#) (NASDAQ: EVBG) is a global software company that provides enterprise software applications that automate and accelerate an organization's operational response to critical events in order to keep people safe and businesses running. During public safety threats such as active shooter situations, terrorist attacks or severe weather conditions, as well as critical business events such as IT outages or cyber-attack incidents, over 3,300 global customers rely on the company's SaaS-based platform to quickly and reliably aggregate and assess threat data, locate people at risk and responders able to assist, automate the execution of pre-defined communications processes, and track progress on executing response plans. The company's platform sent over 1.5 billion messages in 2016, and offers the ability to reach over 200 countries and territories with secure delivery to more than 100 different communication devices. The company's critical event management and enterprise safety applications include Mass Notification, Incident Management, IT Alerting, Safety Connection™, Community Engagement®, Visual Command Center®, Crisis Commander® and CareConverge™, and are easy-to-use and deploy, secure, highly scalable and reliable. Everbridge serves 8 of the 10 largest U.S. cities, 8 of the 10 largest U.S.-based investment banks, all four of the largest global accounting firms, 25 of the 25 busiest North American airports and 6 of the 10 largest global automakers. Everbridge is based in Boston and Los Angeles with additional offices in San Francisco, Lansing, Beijing, London and Stockholm.
