

UCLA Selects Everbridge's Critical Event Management Platform to Keep Students, Staff and Faculty Safe and Informed During Crises

August 22, 2017

Everbridge Adds Major Higher Education Institution to Growing Cluster of Customers within the Southern California Region

BURLINGTON, Mass.--(BUSINESS WIRE)--Aug. 22, 2017-- [Everbridge, Inc.](#) (NASDAQ: EVBG), a global software company that provides critical event management and enterprise safety applications to help keep people safe and businesses running, today announced that the University of California, Los Angeles (UCLA) will be using Everbridge's Critical Event Management platform to help keep students, staff and faculty safe and informed during crisis situations.

Campuses nationwide are unfortunately seeing an influx in violence. According to the Violent Victimization of College Students report, students report about [526,000 violent crimes each year](#), 128,000 of those which "involved a weapon or serious injury to the victim." Further complicating the issue is the fact that UCLA's campus has thousands of people – including parents, campus visitors and sports fans – on the grounds at any given time, which can make it difficult to communicate effectively. Everbridge's [Critical Event Management platform](#) enables campus officials to keep the campus community informed and able to react quickly to a dynamic situation such as a school lockdown, criminal threat or severe weather.

"Everbridge makes sending alerts to individuals faster and more efficient while simultaneously activating on premise alerting hardware with the same message," said Art Kirkland, Director, Office of Emergency Management, UCLA. "Everbridge's proven platform is a crucial piece of our security strategy aimed at ensuring the safety of our students, faculty, staff and visitors at all times."

Everbridge serves numerous educational institutions including major universities such as California Institute of Technology, University of Maryland College-Park and University of Oregon. In addition, the company often serves state and local governments, hospitals, and transit hubs in the same area as the schools, facilitating coordination in response to major events. For example, within the southern California region, Everbridge serves Orange County, Ventura County, Los Angeles County EMS, Los Angeles County Sheriff's Department (LASD), Los Angeles Police Department (LAPD), Los Angeles World Airports (Los Angeles International Airport – LAX), as well as leading healthcare organizations such as Molina Healthcare and PIH Health.

"Campus safety professionals have an increasingly complex and difficult job to do and we are committed to supporting their efforts," said Jaime Ellertson, CEO of Everbridge. "UCLA has taken an important step in giving students, staff, faculty and even parents piece of mind that they will be safe even though they may be far from home."

About Everbridge

[Everbridge, Inc.](#) (NASDAQ: EVBG) is a global software company that provides enterprise software applications that automate and accelerate an organization's operational response to critical events in order to keep people safe and businesses running. During public safety threats such as active shooter situations, terrorist attacks or severe weather conditions, as well as critical business events such as IT outages or cyber-attack incidents, over 3,400 global customers rely on the company's SaaS-based platform to quickly and reliably aggregate and assess threat data, locate people at risk and responders able to assist, automate the execution of pre-defined communications processes, and track progress on executing response plans. The company's platform sent over 1.5 billion messages in 2016, and offers the ability to reach over 200 countries and territories with secure delivery to more than 100 different communication devices. The company's critical event management and enterprise safety applications include Mass Notification, Incident Management, IT Alerting, Safety Connection™, Community Engagement®, Visual Command Center®, Crisis Commander® and CareConverge™, and are easy-to-use and deploy, secure, highly scalable and reliable. Everbridge serves 8 of the 10 largest U.S. cities, 8 of the 10 largest U.S.-based investment banks, all four of the largest global accounting firms, all 25 of the 25 busiest North American airports and 6 of the 10 largest global automakers. Everbridge is based in Boston and Los Angeles with additional offices in San Francisco, Lansing, Beijing, London and Stockholm. Cautionary Language Concerning Forward-Looking Statements:

This press release contains "forward-looking statements" within the meaning of the "safe harbor" provisions of the Private Securities Litigation Reform Act of 1995, including but not limited to, statements regarding the anticipated opportunity and trends for growth in our critical communications and enterprise safety applications and our overall business, our market opportunity, our expectations regarding sales of our products, and our goal to maintain market leadership and extend the markets in which we compete for customers. These forward-looking statements are made as of the date of this press release and were based on current expectations, estimates, forecasts and projections as well as the beliefs and assumptions of management. Words such as "expect," "anticipate," "should," "believe," "target," "project," "goals," "estimate," "potential," "predict," "may," "will," "could," "intend," variations of these terms or the negative of these terms and similar expressions are intended to identify these forward-looking statements. Forward-looking statements are subject to a number of risks and uncertainties, many of which involve factors or circumstances that are beyond our control. Our actual results could differ materially from those stated or implied in forward-looking statements due to a number of factors, including but not limited to: the ability of our products and services to perform as intended and meet our customers' expectations; our ability to attract new customers and retain and increase sales to existing customers; our ability to increase sales of our Mass Notification application and/or ability to increase sales of our other applications; developments in the market for targeted and contextually relevant critical communications or the associated regulatory environment; our estimates of market opportunity and forecasts of market growth may prove to be inaccurate; we have not been profitable on a consistent basis historically and may not achieve or maintain profitability in the future; the lengthy and unpredictable sales cycles for new customers; nature of our business exposes us to inherent liability risks; our ability to attract, integrate and retain qualified personnel; our ability to successfully integrate businesses and assets that we may acquire; our ability to maintain successful relationships with our channel partners and technology partners; our ability to manage our growth effectively; our ability to respond to competitive pressures; potential liability related to privacy

and security of personally identifiable information; our ability to protect our intellectual property rights, and the other risks detailed in our risk factors discussed in filings with the U.S. Securities and Exchange Commission ("SEC"), including but not limited to our Annual Report on Form 10-K for the year ended December 31, 2016 filed with the SEC on March 23, 2017. The forward-looking statements included in this press release represent our views as of the date of this press release. We undertake no intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise. These forward-looking statements should not be relied upon as representing our views as of any date subsequent to the date of this press release.
